[from Koehn et al., 2009]

Lessons Learned:

- SMT struggles with
 - large divergence between languages (syntactic, word-order)
 - Rich morphology (target side)
- SMT performs well on in-domain data
- RBMT often better on out-of domain data

EuroMatrixPlus 2009-2012

Lessons Learned:

Objectives:

- Improving MT Quality
 - Hybrid statistical/rule-based
 - Tree-based (hierarchical, syntactic, tecto-grammatic)
 - Improved learning methods
- Open Research/Community
 - Open source tools
 - Evaluation campaign
 - MT Marathon

Objectives:

- Bringing Translation to the User
 - Professionals:
